St. Louis County COVID-19 Update

COVID-19 Testing

As the spread of COVID-19 continues, getting tested has never been more important. More than 225,000 COVID-19 tests have been conducted in St. Louis County. Testing is crucial to our efforts to contain the spread of the virus and is a major factor in understanding the patterns of its spread. This is how to prevent others from catching it.

As additional information is learned about this virus, it is becoming more clear that asymptomatic spread is a key factor. Health experts encourage anyone who had close contact with the public to get a test – even if they don't have symptoms and haven't had direct contact with someone who was positive. Testing is available to anyone who requests it.

To make an appointment for a free test through St. Louis County Department of Public Health, visit stlcorona.com and click on "COVID-19 Testing." If you don't have access to the internet, call 314-615-0574. Drive-through testing is done at the following DPH clinics:

6121 North Hanley Road in Berkeley
4580 Lindbergh Blvd. in South County

Pop-Up Testing Locations

The COVID-19 pop-up testing location listed below starts **this** weekend. In partnership with St. Louis County Libraries, pop-up testing will occur at the following branches during the month of September. Testing is by appointment only and can be made online [here](#). All pop-up testing locations are between the hours of 8:00 am and noon. [A full schedule is available online at http://www.slcl.org/events.](http://www.slcl.org/events)
